yUML Are Hiring

So we want a geeky iPhone or Ruby developer to join our team. We do lots of great projects, yUML being one of them. [Work for us....](#)

<http://yuml.me/azmos/UseCase1.png>

 Run yUML on your own servers

Other sharable URLs for this diagram

	Editable Url Best for wikis and blog posts	Short Url For twitter etc
Edit Later To come back and edit the image later.	http://yuml.me/azmos/diagram/plain/usecase/	http://yuml.me/azmos/edit/UseCase1
PNG Image For blogs, wikis or email. Transparent background.	http://yuml.me/azmos/diagram/plain/usecase/	http://yuml.me/azmos/UseCase1.png
PDF Document Great for printing. Infinite zoom.	http://yuml.me/azmos/diagram/plain/usecase/.pdf	http://yuml.me/azmos/UseCase1.pdf
JPEG Image Solid background. Plays nicer with some desktop tools.	http://yuml.me/azmos/diagram/plain/usecase/.jpg	http://yuml.me/azmos/UseCase1.jpg
JSON File To programmatically save metadata.	http://yuml.me/azmos/diagram/plain/usecase/.json	http://yuml.me/azmos/UseCase1.json
SVG Vector Graphics Experimental!	http://yuml.me/azmos/diagram/plain/usecase/.svg	http://yuml.me/azmos/UseCase1.svg

This page is experimental. Tweet me your **feedback**. Does it work on IE!!!!???
